

What is a GAMM/SIAM student chapter and why should I join?

Benjamin Unger

Technische Universität Berlin

22nd June 2015

Who participates in chapters?

Group of interested

- graduate students (master and PhD)
- PostDocs and Professors

from the departments of

- Mathematical Science
- Computer Science
- Engineering
- Economics
- Physics
- Mechanics and Material Science

151 SIAM student chapters worldwide

Why start a chapter?

- Share ideas
- Learn about career opportunities
- Develop network with faculty and fellow students
- Collaborate with other chapters
- Benefits from GAMM and SIAM

Benefits

GAMM and SIAM sponsor the chapter with \sim **300 €** each per academic year

Benefits for individual chapter members

- Free student membership in GAMM/SIAM
- Recognition for student chapter members for outstanding service to the chapter.
- Book discounts (SIAM)
- Travel awards and participation in SIAM Annual Meetings (SIAM)
- Online access to GAMM/SIAM newsletters.

Sample Chapter Activities

- Workshops
- Guest speakers
- Field trips (e. g. to companies)
- Social functions (Barbecue, Potluck, . . .)
- Team projects (interdisciplinary projects)
- Participate in GAMM/SIAM Annual Meetings
- Participate in annual Symposium of the German SIAM Student Chapters

4th Symposium of the German

Student Chapters

Trier, August 26-28, 2015

The Symposium is the fourth annual meeting of the German SIAM Student Chapters after [Trier \(2012\)](#), [Heidelberg \(2013\)](#) and [Magdeburg \(2014\)](#). The aim of the conference is to bring together young researchers out of various areas of applied mathematics.

The meeting will include two days of scientific program opened by a welcome reception the evening

before. The second evening invites for a cultural and social program in the historic center of Germany's oldest city.

The SIAM Student Chapter Trier was founded in 2008 as the first of its kind in Germany. Up to now there are four more German SIAM Student Chapters in [Aachen](#), [Hamburg](#), [Heidelberg](#) and [Magdeburg](#). The series of symposia is an important part of the interaction between the individual chapters.

Sample Chapter Activities

- Workshops
- Guest speakers
- Field trips (e. g. to companies)
- Social functions (Barbecue, Potluck, ...)
- Team projects (interdisciplinary projects)
- Participate in GAMM/SIAM Annual Meetings
- Participate in annual Symposium of the German SIAM Student Chapters

What shall we organize for our chapter?

What could we organize for our chapter?

- Opening ceremony for the chapter
- Tool seminar
- Cooperation with graduate schools (BMS, BIMoS)
- Participation in *Lange Nacht der Wissenschaften*
- Participation in *GAMM Jahrestagung*
- Social events: barbecue, potluck, picnic, ...
- Joint research project
- Host a symposium of the German GAMM/SIAM student chapters
- Create website
- ...
