

5th Spring School

Analytical and Numerical Aspects of Evolution Equations

March 11 – 15, 2013 at TU Berlin

Quelle: <http://www.flickr.com/photos/dalbera/2735565030/> , Copyrights: <http://creativecommons.org/licenses/by/2.0/deed.de>

Fatiha Alabau-Boussouira (Metz)

Control of coupled systems of hyperbolic PDEs and applications

Ľubomír Bañas (Edinburgh)

Numerical methods for dynamical micromagnetism

Barbara Niethammer (Bonn)

Analysis of coagulation equations

Felix Otto (Leipzig)

Optimal estimates in stochastic homogenization

Organisation: Etienne Emmrich (Berlin), Petra Wittbold (Essen)
